Testimonial:

I gave my neighbor a bottle of Ningxia Red juice, after she said her 85 year old husband had dementia. I thought no more about it until she called and asked me to order her 2 bottles of NR.

She called again to ask if I had ordered the NR. I told her I had, but I had an unopened bottle that I could bring to her. When I took it to her, she admitted that her husband seemed to be more able to speak in complete sentences since drinking Ningxia Red.

A few weeks later, she told me that her husband had to spend 3 days in the hospital. When he returned home, he was disoriented and unable to find his way to the bathroom.

She immediately gave him some Ningxia Red, and within a day he was back to where he was before he was hospitalized.

I recently gave her Cedarwood oil to place on her husband's brain stem, forehead, big toes and thumbs. I am eager to see what God's Healing Oils will do.
